

# Considering Asia?

**Feng Shui Principle:** To further your career, attend to your front door. Ensure it does not stick and is not blocked, keep it clean and help the energy to flow.

Let us help you along this path. Come talk to **Marsden International** about opportunities in Asia.

Jonathan Marsden has recently returned from a trip to Asia where he met with the leading international law firms to discuss their current and future requirements across the region. Most of the major firms from the UK and US have offices in Asia and there are excellent opportunities for talented and ambitious transactional lawyers from the top Canadian law firms. While Cantonese and Mandarin language skills are an advantage, in many cases they are not a pre-requisite.

For further information about the range of opportunities in this exciting and rapidly expanding market, please call **Jonathan** or **Michaela** for an informal and completely confidential discussion.
